The use of parts not equivalent to the original parts or uncertified aftermarket parts may have a negative impact on the effectiveness of the emission control system and results in the Product's failure to meet emission standards. The use of certified parts does not affect the emission performance warranty. **Maintenance, replacement, or repair of the emission control devices and systems may be performed by any motorcycle repair establishment or individual using any certified part.**

General Emissions Defects Warranty Coverage

BRP warrants to the owner that the vehicle:

- is designed, built, and equipped so as to conform, at the time of sale, with all applicable regulations adopted by the Air Resources Board pursuant to its authority in chapters 1 and 2, part 5, division 26 of the Health and Safety Code; and
- is free from defects in materials and workmanship which cause the failure of a warranted part to be identical in all material respects to that part as described in the vehicle manufacturer's application for certification.

This warranty begins on the date the vehicle is delivered to the first purchaser other than an authorized dealer, or the date it is first used as a demonstrator, lease, or company vehicle, whichever comes first and continues for the time or mileage listed below.

The Emissions Control System Defects Warranty is in addition to BRP Limited Warranty.

The warranty on emissions-related parts shall function as follows:

1. Any warranted part which is not scheduled for replacement as required maintenance in the written instructions shall be warranted for the warranty period defined below. If any such part fails during the warranty period, it shall be repaired or replaced by BRP. Any such part repaired or replaced under warranty shall be warranted for the remaining warranty period.
2. Any warranted part which is scheduled only for regular inspection in the written instructions shall be warranted for the warranty period defined below. A statement in such written instructions to the effect of "repair or replace as necessary" shall not reduce the period of warranty coverage. Any such part repaired or replaced under warranty shall be warranted for the remaining warranty period.
3. Any warranted part which is scheduled for replacement as required maintenance in the written instructions shall be warranted for the period of time or mileage, whichever first occurs, prior to the first scheduled replacement point for that part. If the part fails before the first scheduled replacement point, the part shall be repaired or replaced by BRP. Any such part repaired or replaced under warranty shall be warranted for the remainder of the period prior to the first scheduled replacement point for the part.
4. Repair or replacement of any warranted part shall be performed at no charge to the vehicle owner, at a warranty station, except in the case of an emergency when a warranted part or a warranty station is not reasonably available to the vehicle owner. In an emergency, repairs may be performed at any available service establishment, or by the owner, using any replacement part. BRP shall reimburse the owner for his or her expenses including diagnostic charges for such emergency repair or replacement, not to exceed the manufacturer's suggested retail price for all warranted parts replaced and labor charges based on the manufacturer's recommended time allowance for the warranty repair and the geographically appropriate hourly labor rate. A vehicle owner may reasonably be required to keep receipts and failed parts in order to receive compensation for warranted repairs reimbursable due to an emergency, provided the manufacturer's written instructions advise the owner of his obligation.
5. Warranty services or repairs shall be provided at all BRP's dealership which are franchised to service the subject vehicles.
6. The vehicle owner shall not be charged for diagnostic labor which leads to the determination that a warranted part is in fact defective, provided that such diagnostic work is performed at a warranty station.
7. BRP shall be liable for damages to other vehicle components proximately caused by a failure under warranty any warranted part.
8. The lack of availability of such parts or the incompleteness of repairs within a reasonable time period, not to exceed 30 days from the time the vehicle is initially presented to the warranty station for repair, shall constitute an emergency.

9. Any replacement part may be used in the performance of any maintenance or repairs. Any replacement part designated by a manufacturer may be used in warranty repairs provided without charge to the vehicle owner. Such use shall not reduce the warranty obligations of the vehicle or engine manufacturer, except that BRP shall not be liable for repair or replacement of any replacement part which is not a warranted part (except as provided under subsection (7)).
10. Any add-on or modified part exempted by the Air Resources Board from the prohibitions of section 27156 of the California Vehicle Code may be used on a vehicle. Such use, in and of itself, shall not be grounds for disallowing a warranty claim made in accordance with this article. BRP shall not be liable under this article to warrant failures of warranted parts caused by the use of an add-on or modified part.

Warranty Period

5 years or 30 000 km (18 641 mi), whichever first occurs.

Exclusions

The repair or replacement of any warranted part otherwise eligible for warranty coverage, shall be excluded for such warranty coverage if BRP demonstrates that the vehicle has been abused, neglected, or improperly maintained, and that such abuse, neglect, or improper maintenance was the direct cause of the need for the repair or replacement.

Except as provided above, any adjustment of a component which as a factory installed, and properly operating, adjustment limiting device is eligible for warranty coverage.

- **North America Only:** calling at 1 888 272-9222.
